July, 1966

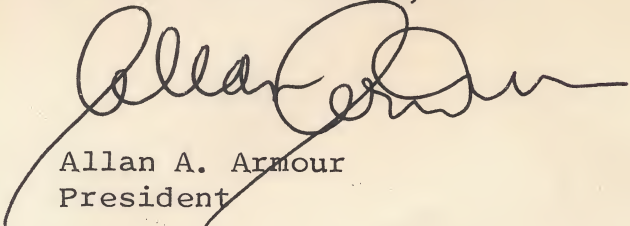

Gentlemen:

Enclosed please find a specification sheet on what we think is the greatest new piece of audio-visual equipment to hit the market.

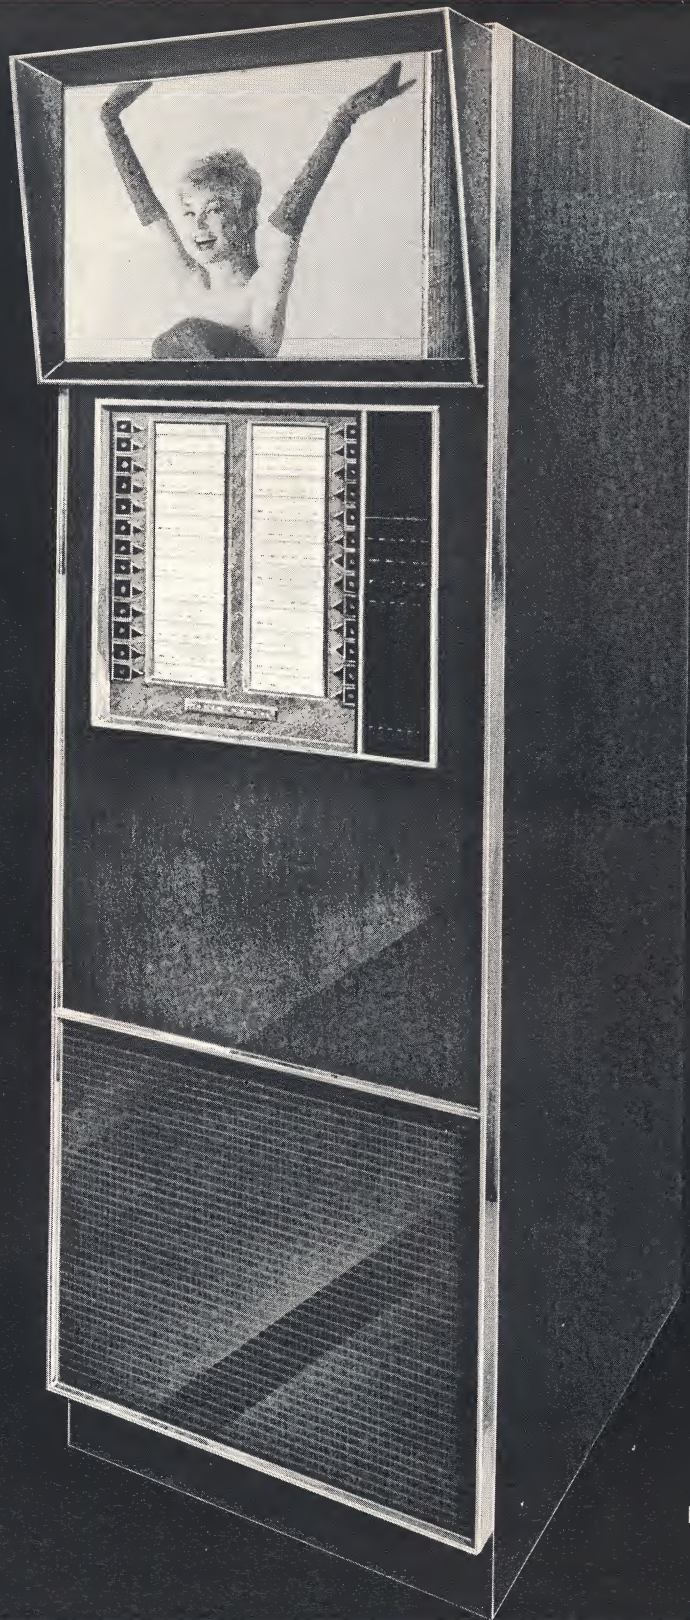

I would love to show you this unit at your office. However, since it weighs 400 pounds it would be impossible. If you can spare fifteen minutes away from your office any time-any day-any week call me. I think it will be the most informative fifteen minutes you will ever spend.

Sincerely,

PROJECTION SYSTEMS, INC.

Allan A. Armour

ACCESS FOR ALL SERVICE AND FILM CHANGE

COLOR-SONICS MODEL #2600A THEATRE
TECHNICAL SPECIFICATIONS

GENERAL DESCRIPTION

The Color-Sonics #2600 is a multiple play audio-visual theatre.

AUTOMATIC FILM REJECT

Broken film rejects automatically or may be rejected from rear of cabinet with a key switch.

No Down Time
No Service Call

SELECTION

Automatic push button selection of any of 26 film cartridges—in or out of sequence.

MEMORY SYSTEM

The Color-Sonics Theatre will search and "remember" which films have been selected. **Any number of films may be pre-selected.**

An audio-visual program may be pre-selected and then **run without an operator.**

COOLING

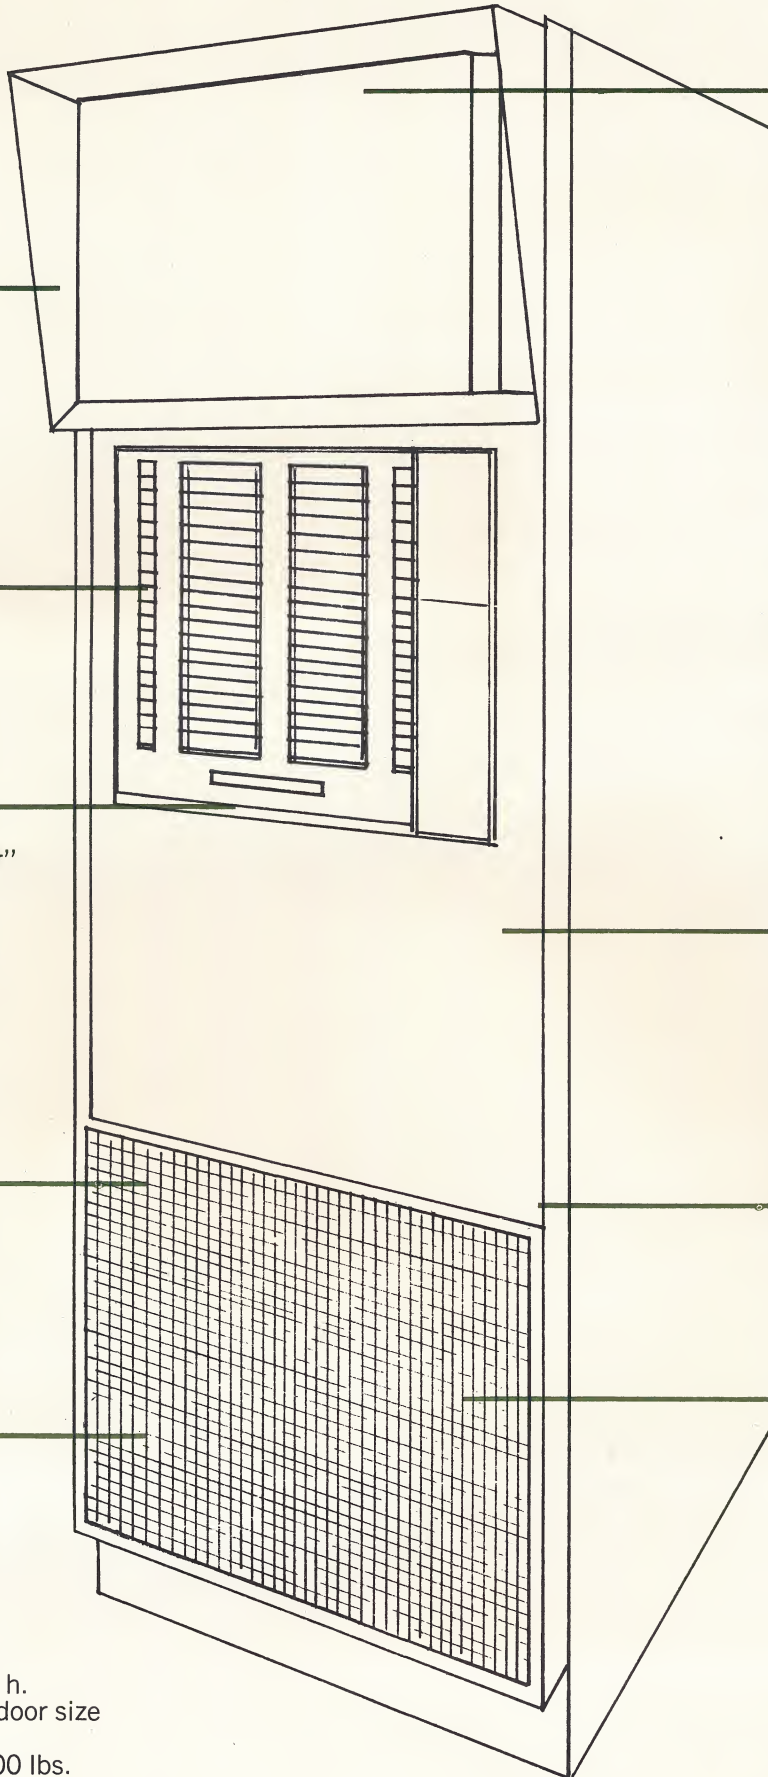

Air-cooled by filtered air. **Longer film life eliminates film cartridge jamming.**

ELECTRICAL SPECIFICATIONS

115-117 volt 60 cycle
AC—375 watts—
NO SPECIAL WIRING
REQUIRED

DIMENSIONS:

27¾" w. by 34½" d. by 82" h.
Fits through any standard door size
without disassembly.
WEIGHT: Approximately 400 lbs.

PROJECTION SYSTEM

Projection System—Rear Screen
—Manufactured by Fairchild
Camera and Instrument
Company.

Projection Lamp—100 watt self-
contained lens system—
**for clear, bright color pictures
even in high ambient light.**
**Can be played anywhere—no
need to darken a room or adjust
existing light.**

Cartridge System—The exclusive
Color-Sonics cartridge provides:

1. continuous loop with no
rewind time.
2. holds audiences attention.
3. instant loading and replace-
ment without threading.
4. no special training required.
5. maximum film load—up to
five minutes per cartridge.
6. film life up to 2000 plays.

SCREEN SIZE

300 square inches.

FRONT DOOR ACCESS

Allows mechanism servicing
and film changes, without
moving machine. Standard
electrical components utilized
throughout. Replacement parts,
when needed, are always avail-
able. Plug in relay panel.

FRONT DOOR LOCK

Enables machine to be used in
high traffic area, **without the
need for guards or special
security.**

SOUND SYSTEM

Amplifier—35 watts solid state
all transistor—no warm up time
—**the Color-Sonics Audio-Visual
Theatre is ready whenever
you are.**

Speaker System—12" heavy
duty Woofer 4" x 10"—mid range
crossover network in amplifier.
External Volume & Tone Control.

OPTIONAL EQUIPMENT:

Remote wall box.
